

# Time to unwind

Building **A** **B**

There are numerous locations for leisure activities during your time at the Center. Our glazed Winter Garden **A** provides a wonderful view of the city.

The Lounges in Buildings **A** and **B** offer a place for casual conversation or group discussions.

The Library in Building **B** provides a variety of reading materials and a quiet space to enjoy them. In the iStudy room, next to the Library, guests can work, do research using either the integrated workstation or their own device.

Smoking is only permitted on our outdoor terraces **A**, **B** and on the Piazza **F**.
